

Hotel 4 Hounds Wedding Form

Our furrytail dog wedding chaperone service allows you to relax and enjoy your special day, in the knowledge that your pet is in safe and professional hands. We create an experience which you and your guests will love, providing fantastic photo opportunities and making memories to treasure, whilst ensuring the happiness and welfare of your four-legged best friend. We will board your dog the night before the wedding, arrange an appointment at our local groomers for a wash and blow to make sure they are looking their absolute best. If your dog needs to be cut, we recommend you arrange this appointment yourself beforehand at your own groomers to get their usual cut in enough time for their fur to be at a perfect length for the photos. We then transport them to your venue. You may want some pre wedding photos at the bride and grooms' houses before the big event. We need names and numbers of points of contacts on behalf of the bride and groom to take the stress away and for our service to run flawlessly.

Date of the Wedding: _____

Brides name: _____
